2-2010	1/27/10	Taxation	Ch. 142	2/9/10

## **PREFACE**

The Town of Patterson has, over the years, passed through a process of legislative change common to many American communities. While only a few simple laws were necessary at the time of the incorporation of the town, subsequent growth of the community, together with the complexity of modern life, has created the need for more and detailed legislation for the proper function and government of the Town. The recording of local law is an aspect of municipal history, and as the community develops and changes, review and revision of old laws and consideration of new laws, in the light of current trends, must keep pace. The orderly collection of these records is an important step in this ever-continuing process. Legislation must be more than mere chronological enactments reposing in the pages of old records. They must be available and logically arranged for convenient use and must be kept up-to-date. It was with thoughts such as these in mind that the Town Board ordered the following codification of the Town's Legislation.

### **Contents of Code**

The various chapters of the Code contain all currently effective legislation of a general and permanent nature enacted by the Town Board of the Town of Patterson including revisions or amendments to existing legislation deemed necessary by the Town Board in the course of codification.

### **Division of Code**

The Code is divided into parts. Part I, Administrative Legislation, contains all Town legislation of an administrative nature, namely, that dealing with the administration of government, that establishing or regulating municipal boards or departments and that affecting officers and employees of the municipal government and its departments. Part II, General Legislation, contains all other Town legislation of a regulatory nature. Items of legislation in this part generally imposes penalties for violation of their provisions, whereas that in Part I does not.

### **Histories**

At the end of the Scheme (list of titles) in each chapter is located the legislative history for that chapter. This History indicates the specific legislative source from which the chapter was derived, including the enactment number (e.g., ordinance number, local law number, bylaw number, resolution number, etc.), if pertinent, and the date of adoption. In the case of chapters containing parts or articles derived from more than one item of legislation, the source of each part of article is indicated in the text, under its title. Amendments to individual sections or subsections are indicated by histories where appropriate in the text.

## **General References; Editor's Notes**

In each chapter containing material related to other chapters in the Code, a table of General References is included to direct the reader's attention to such related chapters. Editor's Notes are used in the text to provide supplementary information and cross-references to related provisions in other chapters.

## **Appendix**

Certain forms of local legislation do not fall into the categories as established for Parts I and II of the Code, but are of such significance that their application is community-wide or their provisions are germane to the conduct of municipal government. The Appendix of this Code is reserved for such legislation and for any other material that the community may wish to include.

## **Disposition List**

The Disposition List is a chronological listing of legislation, indicating its inclusion in the publication or the reason for its exclusion. The Disposition List will be updated with each supplement to the Code to include the legislation reviewed with said supplement.

## **Index**

The Index is a guide to information. Since it is likely that this publication will be used by persons without formal legal training, the Index has been formulated to enable such persons to locate a particular section quickly. Each section of each chapter has been indexed. The Index will be supplemented and revised from time to time as new legislation is added.

## **Instructions for Amending the Code**

All changes to the Code, whether they are amendments, deletions, or additions, should be adopted as amendments to the Code. In doing so, existing material that is not being substantively altered should not be renumbered.

**Adding new sections.** Where new sections are to be added to a chapter, they can be added at the end of the existing material (continuing the numbering sequence) or inserted between existing sections as decimal numbers (e.g., a new section between §§65-5 and 65-6 should be designated §65-5.1).

**Adding new chapters.** New chapters should be added in the proper alphabetical sequence in the appropriate division or part (e.g. Part I Administrative Legislation, or Part II, General Legislation), utilizing the reserved chapter numbers. New chapter titles should begin with the key

word for the alphabetical listing (e.g., new legislation on abandoned vehicles should be titled “Vehicles, Abandoned” under “V: in the Table of Contents, and a new enactment on coin-operated amusement devices should be “Amusement Devices” or “Amusement Device, Coin-Operated” under “A” in the Table of Contents). Where a reserved number is not available, an “A” chapter should be used (e.g., a new chapter to be included between Chapters 166 and 167 should be designated Chapter 166A).

**Adding new articles.** New articles may be inserted between existing articles in a chapter (e.g., adding a new district to the Zoning Regulations) by the use of “A” articles (e.g., a new article to be included between Articles XVI and XVII should be designated Article XVIA). The section numbers would be as indicated above (e.g. if the new Article XVIA contains six sections and existing Article XVI ends with §166-30 and Article XVII begins with §166-31, Article XVIA should contain §§166-30.1 through 166-30.6).

### **Supplementation**

Supplementation of the Code will follow the adoption of new legislation. New legislation or amendments to existing legislation will be included and repeals will be indicated as soon as possible after passage. Supplemental pages should be inserted as soon as they are received and old pages removed, in accordance with the Instruction Page which accompanies each supplement.

## TABLE OF CONTENTS

**Tools for Finding Information** - In addition to the municipality's legislation, this publication contains tools to help locate information; table of contents, index, chapter outlines (schemes), and a disposition list.

**Chapters** - Chapters are generally discrete pieces of legislation, but can also be made up of several individual pieces on a related topic. In that case, the individual pieces are arranged into articles or parts within the chapter. The article or part titles can be found in the chapter scheme or by subject in the index. If you are familiar with a former number or title, look for it chronologically in the disposition list.

**Reserved Chapters** - In the numbering of chapters, space has been provided for the convenient insertion, alphabetically, of later enactments. Help in selecting an appropriate number for a new chapter is available from the editor. See also the "Instruction for Amending the Code" in the Preface.

**Section Numbering** - A chapter-related section-numbering system is employed. Each section of every item of legislation is assigned a number which indicates both the number of the chapter in which the item of legislation is located and the location of the section within that chapter. Thus, the fourth section of Chapter 6 is § 6-4.

**Scheme** - The scheme is the list of section titles which precedes the text of each chapter. These titles are carefully written so that, taken together, they may be considered as a summary of the content of the chapter. Taken separately, each describes the content of a particular section. For ease and precision of reference, the Scheme titles are repeated as section headings in the text.

**Page Numbers** - A unique page-numbering system has been used in which each chapter forms an autonomous unit. The first page of each chapter is the number of that chapter followed by a colon and the numeral "1." Thus, Chapter 6 begins on page 6:1. By the use of this system, it is possible to add or to change pages in any chapter, or add new chapters, without affecting the sequence of subsequent pages.
